

## Volkswagen ID4 X Automobile EV SUV 82kWh Cargo Capacity 30.3 Cu Ft

Our Product Introduction

for more products please visit us on [chinese-evcars.com](http://chinese-evcars.com)

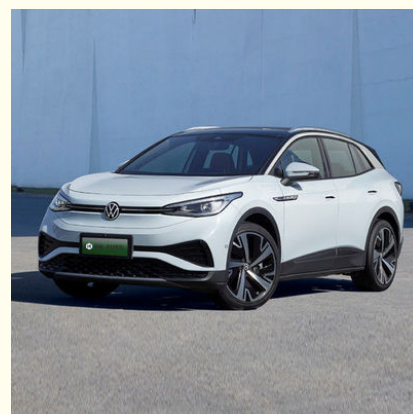

### Basic Information

- Place of Origin: china
- Brand Name: WV
- Model Number: ID4
- Minimum Order Quantity: 1
- Price: RMB
- Delivery Time: 5
- Supply Ability: 1

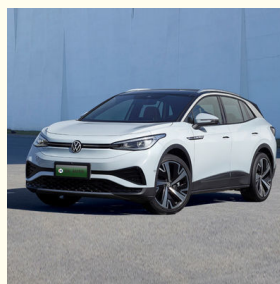

### Product Specification

- Acceleration: 7.2 Secs
- Availability: Available Now
- Battery Capacity: 82kWh
- Brand: Volkswagen
- Cargo Capacity: 30.3 Cu Ft
- Charging Time: 7.5 Hours
- Drivetrain: Front-Wheel Drive
- Horsepower: 201 Hp
- Model: Electric Car
- Number Of Seats: 5
- Range: 250 Miles
- Top Speed: 93 Mph
- Torque: 228 Lb-ft
- Type: Electric Vehicle
- Highlight: Volkswagen ID4 X Automobile EV ,

## Product Description

In Stock Automobile EV SUV Volkswagen ID4 X Auto Parking 600 Km Range For family

The design of the entry-level 23 SAIC-Volkswagen ID. 4X is not cheap, but looks more textured due to its excellent workmanship and exquisite design. In terms of design, this new energy vehicle built by a traditional large factory can be said to integrate the common advantages of traditional fuel vehicles and new energy vehicles, which is very in line with the aesthetics of current mainstream consumers. Especially for entry-level models, IQ can also be optional Light Eye Matrix and other configurations, as well as the standard self-repairing tires of the whole series, obviously make this pure electric SUV more reliable.

- **Vehicle appearance:** In terms of appearance, there is IQ before ID.4 X Light matrix headlights and ID family front face design are completely integrated. There is a 3D through-type dynamic tail lamp at the rear, and the red through-type visual effect is highly recognizable.
- **Vehicle interior:** The interior ID. 4 X innovation creates three color matching interiors with the themes of fashion coordinates, elegant style and urban passion. In front of the dashboard, the ID.Light light wizard can send different color light alerts in multiple scenes such as navigation, incoming calls, voice interaction, warning, etc., to keep communication with drivers and passengers at all times.
- **Vehicle powertrain:** Power performance and safety are the focus of electric vehicle users. ID.4 X pure long-endurance version, with maximum power of 150kW and peak torque of 310Nm, has strong and efficient power performance. Its battery capacity is 83.4kWh, the comprehensive driving range (CLTC) is 607km, and it can quickly fill 80% of the power in a cup of coffee through DC fast charging, fully meeting the needs of consumers.
