Product Description

BYD Denza D9 EV 2022 electric large MPV 600 km 7-seater four-wheel drive new energy high-end commercial vehicle

BYD Denza D9 EV 2022 is an electric large multi-purpose MPV launched by BYD under the Denza series. With a modern streamlined design, it adopts a stylish and technological look. The length is 4960mm, width 1899mm, height 1815mm, and wheelbase 3000mm. It seats 7 people with ample luggage space.

· Performance

It is powered by a permanent magnet synchronous electric motor with a maximum power of 120kW and peak torque of 310N·m. Equipped with lithium iron phosphate battery that supports a longest single charge range of 600km. It accelerates from 0-100km/h in 6.9 seconds. With an all-wheel drive system, it increases traction and off-road performance.

· Applications

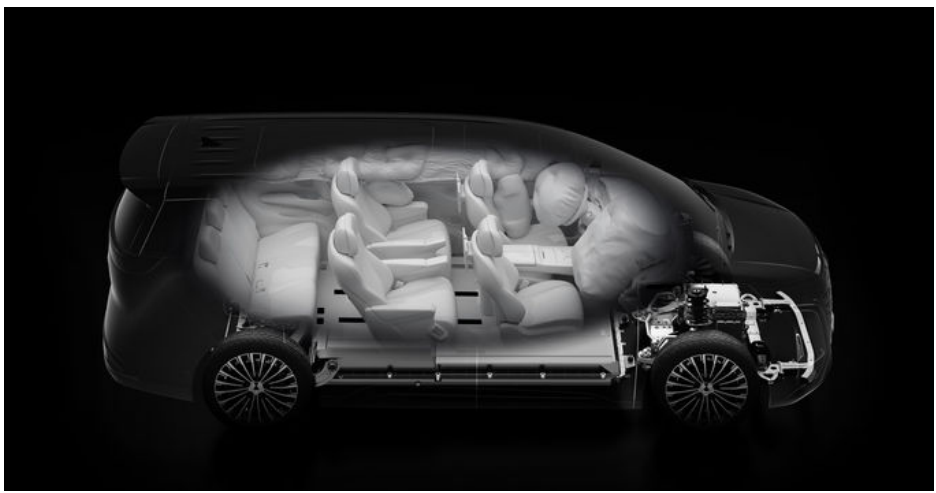

Suitable for city driving and long-distance travels. The 7 seats satisfy family and enterprise vehicle needs. The 600km range relieves anxiety of long distance driving. The all-wheel drive system enhances passability on various roads. Electric drive brings advantages of fast acceleration and low operating costs. The whole vehicle represents BYD's strength in new energy and intelligent driving field.

·Interior Features

The seats adopt ergonomic designed premium leather touch and are adjustable in multiple ways in front and rear rows, bringing comfortable seating experience. The 12.8-inch large touch screen supports connection with mobile APP, voice control, navigation, music and call functions. There are two independent folding screens in the rear, allowing separate contents. The smart start-stop system automatically controls air circulation based on settings. It is also equipped with Beidou/GPS dual-antenna navigation system for more precise path planning. A 360 degree interior camera system can monitor the whole vehicle interior in real-time, improving safety. High quality soft materials and color matching, together with exquisite details, create a comfortable and spacious interior space.

• Manufacturer	• Denza
• Level	• Medium and large MPV
• Energy type	• EV
• Maximum power (KW)	• 275
• CLTC pure electric cruising range	• 600
• Maximum torque (Nm)	• 470
• Length*width*height (mm)	• 5250*1960*1920
• Body structure	• 5-door, 7-seater MPV
• Maximum speed (km/h)	• 180
• Official 0-100km/h acceleration (s)	• 6.9
• Trunk volume (L)	• 410-2130
• Curb weight (kg)	• 2785
• Maximum full load mass (kg)	• 3310
• Number of drive motors	• 2
• Motor layout	• Front + rear
• Battery Type	• iron phosphate battery
• Battery energy (KWh)	• 103.36
• Battery energy density (Wh/kg)	• 150
• Electricity consumption per 100 kilometers (kWh/100km)	• 18.4
• Fast charging function	• support
• Fast charging power (KW)	• 166
• Drive mode	• Dual motor four-wheel drive
• four-wheel drive	• Electric four-wheel drive
