Battery energy (KWh)	38.88
Electricity consumption per 100 kilometers (kWh/100km)	
Fast charging function	Yes
Fast charging power (KW)	40
Fast charging time (hours)	0.5
Drive mode	2

BYD Seagull is ideal for urban mobility. With its compact size and convenient design, it is very suitable for use in large cities. The car has a battery range of 405KM and features fast charging capability. Users do not have to worry about battery life - simply charge and go.

BYD Seagull sells well in the Chinese market for a few key reasons. Firstly, its relatively affordable price coupled with super-fast charging is attractive to consumers. Secondly, its 3-meter long body provides excellent maneuverability for navigating increasingly congested urban roads and easy parking. The practical functionality of shuttling around cities efficiently has resonated well with customers. In summary, this electric vehicle delivers on both long range and usability, perfectly fulfilling short commute needs within urban centers.
