Product Description

Volkswagen ID3 is a new energy vehicle with favorable price and best-selling in Europe.

Volkswagen ID.3 is positioned in the compact car market, and its size is also very short and compact when viewed from the side. The length, width and height of the vehicle are 4261/1778/1568mm, and the wheelbase is 2765mm. The overall size is about the same size as a Golf. Since the car adopts the design concept of short front/rear overhang and long wheelbase, the longitudinal performance of the cabin should be more advantageous

Our Product

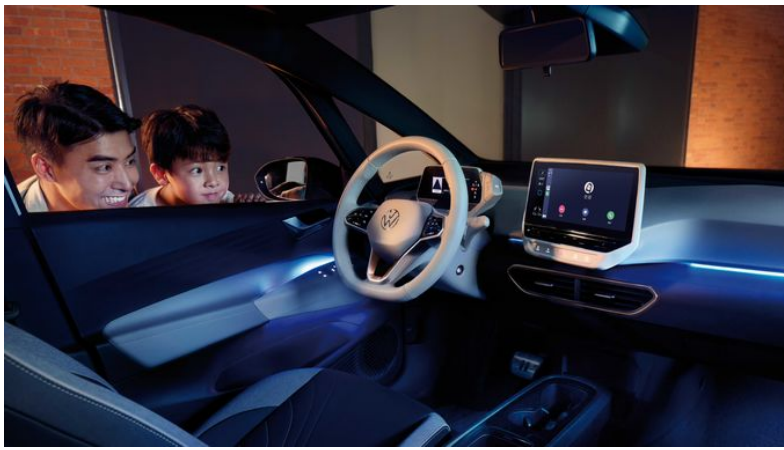

than that of the Golf.

In terms of power, Volkswagen ID.3 adopts a rear-mounted motor + rear-wheel drive layout that is rare in its class. The motor has a maximum power of 125 kilowatts and a peak torque of 310 N·m. The energy storage device is a ternary lithium battery with a capacity of 57.3kWh, and the officially announced comprehensive operating range is approximately 430 kilometers.

Buying ID in China has a huge price advantage!!!

Level	Compact car
Motor maximum horsepower (PS):	170
Length width height (mm):	4261x1778x1568
NEDC pure electric cruising range (km):	450
