

IM L7 EV 2023 Elite Chinese Electric Sedan Cruising Range 675km

Our Product Introduction

for more products please visit us on chinese-evcars.com

Basic Information

- Place of Origin: china
- Brand Name: Green Energy Box
- Model Number: IM L7 2023 Elite
- Minimum Order Quantity: 1

Product Specification

- Energy Type: All-electric
- CLTC/NEDC Pure Electric Cruising Range: 675km
- Body Structure: Sedan (automobile Body Type)
- Battery Type: Ternary Lithium Battery
- Electricity Consumption Per 100 Kilometers (kwh/100km): 13.4kwh/100km
- Motor(Ps): 340
- Driving Direction : Left
- Highlight: im l7 EV 200Km/h,
IM L7 2023 Elite Chinese Electric Sedan,
IM L7 Chinese Electric Sedan

Product Description

IM L7 It's called the Tesla Killer .China's mid-to-high-end family sedan.Snake Performance Electric Sedan

On October 18, IM Motors officially announced its L7 Snake Performance full-electric sedan which is expected to launch later this year. The L7 Snake Performance is based on the current [L7](#) on the Chinese market.

Established in December 2020, [IM Motors](#) was founded as a joint venture between [SAIC](#), [Alibaba](#), and Zhangjiang Hi-Tech. Its English brand name, 'IM', means Intelligence in Motion. Its Chinese name is Zhiji Motors (智己汽车).

The L7 Snake Performance adopts a matte gray body color. It retains the (Σ) Epsilon-shaped daytime running lights, giving a distinctive light signature.

According to IM Motors, the L7 Snake Performance is equipped with IM Motors' high-performance braking system, suspension system, and high-power drive systems.

Coming to the side, the car looks light and dynamic with its gently sculpted sides. For reference, the IM L7 has a dimension of 5098/1485/1960mm with a 3100mm wheelbase and a drag coefficient of 0.21cd.

IM Motors has not announced the IM L7 Snake Performance's power data. As a reference, the IM L7 is available in two versions, Dynamic and Pro. Both versions come with all-wheel drive, with a 175kW (235hp) motor on the front axle and a 250kW (335hp) motor on the rear. Combined, they produce 725Nm of torque. The IM L7 has only one battery option, a 93kWh unit, which offers 615km (382 miles) of range on the NEDC cycle. Lastly, IM claims the L7 can hit 100kph from a standstill in 3.87 seconds.

Overview

Key attributes

Industry-specific attributes

Brand Name	I M L 7 2022
------------	--------------

Other attributes

Place of Origin	Sichuan, China
Product name	Electric Car

Color	White
Fuel	Pure Electric
Max Speed	200 Km/h
Seats	5 Seats
WHEELBASE	3100mm
Curb weight	2290kg
Year	2022.04
Level	Large Car
