Product Description

ROEWE CLEVER Made-in-China ultra-compact and ultra-cheap household cost-effective mobility pure electric vehicle

RWD CLEVER 311km Yuanqi Boing Boing Edition has a guide price of 67,999,000 yuan and is positioned as a minivan. Appearance, Yuanqi Boing Boing Edition is the CLEVER's revised model, the new model and the old model in the appearance of the configuration and other aspects of the almost the same, increased the "yellow zhizhi" color, LED turn signal lamps, NFC smart key configuration and so on. The new car will be a more youthful and personalized model. Wheels also used multi-spoke aluminum alloy wheels, looks more lively and lovely.

Our Product Introduction

The interior also adopts the same design as the normal version of the model, embedded center control screen + double-spoke steering wheel are not absent, at the same time, the new car in the seats, air conditioning vents and other details into a number of bright colors, can play a very good role in the embellishment. In addition, the new car will be equipped with a one-piece seat, at the same time, the door panel will also be integrated storage box, to enhance the practical attributes of the vehicle.

In terms of equipment, this car gives you two airbags, primary and secondary, tire pressure display, rear parking radar, manual air conditioning, monochrome display, keyless start, etc., so it can be said that at this price point, there is basically not much too much equipment.

Space, the car's body dimensions of 3140 * 1648 * 1531, wheelbase of 2000, as a mini-car, the front space is still very enough, but don't think about the space in the back row, it can still be used to put things; power with a permanent magnet synchronous single motor, total power of 33KW, total torque of 100N-m, CLTC pure electric range of 311KM, does not support fast charging, the power is general, the pickup speed is also slow, but the range is still good.

Place of Origin	Shanghai, China
Product name	4 Wheel Electric Car
Color	white
Body structure	3-door 4-seat Hatchback
Max Speed	100km/h
Fuel	100% Electric
Battery type	Lithium Iron Phosphate Battery
Charging time	5.5
WHEELBASE	3140*1648*1531
Maximum power	33
Maximum torque(Nm)	100
