Product Description

Li L8, a large luxury 6-seater PHEV SUV with a comprehensive range of 1315KM! Larger size, longer battery life

Li L8 continues the style of Ideal One in terms of styling design, and it is also a replacement for Ideal One. The front face adopts a through-type shape, the headlights are slender, the internal light group is an LED light source, and the daytime running lights are designed in the air intakes on both sides to integrate with the front of the car.

In the interior, the entire center console is based on a smart cockpit, using a traditional ladder shape and

Our Product

wrapped in soft materials. The equipped multimedia display is 15.7 inches. Internally supports OTA upgrades, 5G network, Bluetooth, car phone, roadside assistance navigation, voice recognition and other functions. The steering wheel uses a three-spoke multi-function steering wheel and is made of leather. There is also an LCD screen above the steering wheel, which allows you to intuitively see driving information. In addition, the car is equipped with 256-color ambient lighting.

In terms of space, the entire vehicle size of the Li L8 is 5080x1995x1800MM, and the wheelbase is 3005MM. It adopts a 2+2+2 seat layout, and all seats in the car are Nappa leather seats. The front and second row seats support electric adjustment. In addition, the third row will also have forward and backward movement and waist adjustment support, which performs relatively well whether it is for home or business travel.

In terms of power, the car is equipped with the extended-range power of a 1.5T engine, with a maximum horsepower of 449 horsepower and a maximum torque of 620 Nm. The pure electric cruising range can reach 175 kilometers, and it can accelerate from 0 to 100 kilometers in 5.3 seconds. It also supports fast charging and has a comprehensive cruising range of 1,315 kilometers.

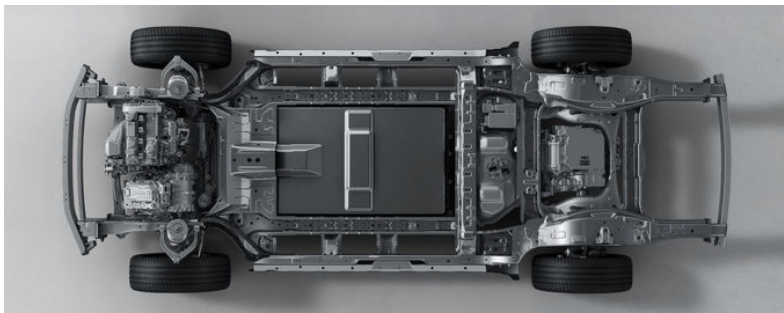

Product Paramenters
