### Product Description

LEAPMOTOR C11 PHEV medium-sized SUV, with a comprehensive range of 1024KM! Cheap price, Get Your Money's Worth! !

As a 5-seater car, the C11 EREV has dimensions of 4780/1905/1775mm with a 2930mm wheelbase and a 2030 kg curb weight. From the side, notable design elements include a two-color body, a suspended roof, blacken luggage racks on the roof, densely-spoked rims, and hidden door handles. Furthermore, the front adopts a closed grille with slender and sharp headlights.

Our Product

The rear is round with through-type taillights. The C11 EREV gets a powertrain combining a gasoline engine with an electric motor, matched with a ternary lithium battery pack. The gasoline engine only charges the battery, it doesn't directly drive the wheels. The gasoline engine is a turbocharged 1.2 liter 3-pot with 131 hp. The electric motor has 272 hp. The top speed is 170 km/h. The combined range will be as high as 1024 km and the CLTC range of only electric power will be 285 km.

The interior adopts a triple-screen design and a two-spoke round steering wheel. It will support L2++ driving assistance functions. More interior specifications will be revealed later.
