

Neta GT Chinese EV Cars 2 Door 4 Seat 4WD Hardtop Electric Sports Car

Our Product Introduction

for more products please visit us on chinese-evcars.com

Basic Information

- Place of Origin: China
- Brand Name: Green Energy Box
- Model Number: Neta GT

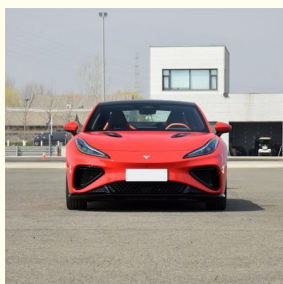

Product Specification

- Manufacturer: Neta
- Level: Sports Car
- Energy Type: Pure Electric
- CLTC/NEDC Pure Electric Cruising Range: 560KM-660KM
- Body Structure: 2-door, 4-seater Sports Car
- Assisted Driving Level: L2
- Highlight: **Neta GT Chinese EV Cars,
Neta GT 2 door 4 seat 4WD,
Neta GT hard top electric sports car**

Product Description

Neta GT 2-door, 4-seat 4WD hard-top electric sports car. it takes only 3.7 seconds to accelerate from 0 to 100km/h

The Neta GT is a sporty two-door electric coupe with four seats from Hozon Auto. It soon will hit the Chinese market, becoming the first pure electric four-seat coupe ever. The GT will have up to 462 horses and 580 km of range . Let's get to know it better.

Before we will crack on with the Neta GT, we will detail the Neta brand. Neta Motors was founded in 2018 under Hozon Auto. Its model line currently comprises two SUVs called U and V, and a sporty sedan called S. In 2022, Neta managed to deliver 152,073 vehicles. It is 30,000 more than Xpeng deliveries. It seems that Neta wants to enter the sports car segment with the upcoming GT model.

Speaking of dimensions, they are 4715/1979/1415 mm with a wheelbase of 2770 mm. The Neta GT looks really nice, especially in a pink color. But its rims are too small and look a bit awkward in the wheel arches. They are 245/45 R19. The GT would look better if Neta used bigger rims.

While Neta may not be a leader in Advanced Driver Assistance Systems (ADAS), the Neta GT does offer an optional L2 ADAS package, although it appears to be rather basic, likely a combination of Lane Keep Assist and Adaptive Cruise Control. It's powered by dual Horizon Robotic Journey 3 chips with a total of 10TOPs, a setup we previously saw in the Li Auto ONE, which delivered a reasonably capable NOA highway feature so there's hope for the NETA system yet.

The Neta GT will be available in RWD and 4WD versions. The first one will have a power output of 170 kW (231 hp). As for the 4WD version, its power output will reach 340 kW (462 hp). It is a decent number, but there are quite a lot of more powerful cars in China. The battery capacity of the Neta GT is unknown. But its range will be about of 560-580 km, depending on a drive type.
