

Changan Deepal SL03 Plugin Hybrid Sedans Comprehensive Driving Mileage 1100KM-1120KM

Our Product Introduction

for more products please visit us on chinese-evcars.com

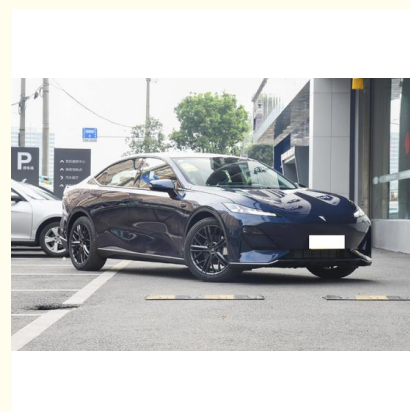

Basic Information

- Place of Origin: China
- Brand Name: Green Energy Box
- Model Number: Deepal SL03

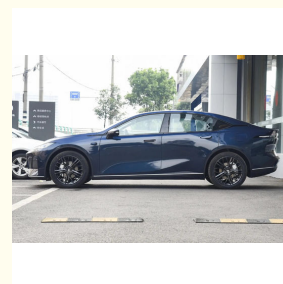

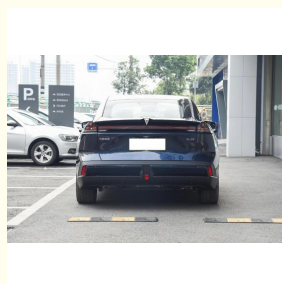

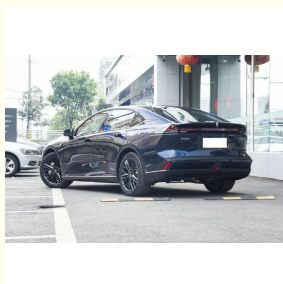

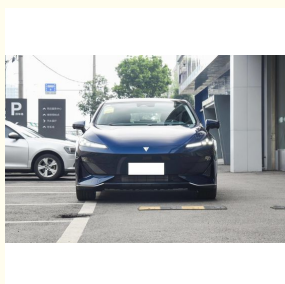

Product Specification

- Manufacturer: CHANGAN
- Level: Mid-size Sedan
- Energy Type: EV/PHEV
- Comprehensive Driving Mileage: 1100KM-1120KM
- CLTC/NEDC Pure Electric Cruising Range: 515KM-705KM
- Assisted Driving Level: L2
- Highlight: changan deepal sl03 plugin hybrid sedans,
changan deepal plugin hybrid sedans,
changan deepal sl03 1120KM

Product Description

Deepal SL03 Changan new energy sedan, including PHEV and EV, gives you more choices

Recently, Deepal announced that its SL03 sedan and S7 SUV equipped with advanced driving assistance functionalities called SL03i and S7i will launch on October 27 in China. Deepal is a joint venture among CATL, Huawei, and Changan.

The 2023 Deepal SL03 is available in four versions, namely: 135 Plus Range Extender, 200 Max Range Extender, 515 Max Pure Electric, and 705 Max Pure Electric

The pure electric versions are offered in low-power and high-power with a rear-mounted single electric motor that has a maximum power of 160 KW and 190 KW, respectively. The 0 – 100 km/h acceleration time is 5.9 seconds. Its 58.1 kWh and 79.97 ternary lithium battery pack options provide the corresponding CLTC cruising ranges of 515 km and 705 km.

The ranger-extender versions are powered by a 70 kW 1.5L naturally aspirated engine and a rear-mounted electric motor that outputs either 160 kW or 175 kW. Its 0 – 100 km/h acceleration time is 7.2 seconds. The 18.99 kWh and 28.39 kWh lithium iron phosphate battery packs provide a CLTC pure electric cruising range of 135 km and 200 km, respectively.

The pure electric versions are powered by a rear-mounted permanent magnet synchronous motor that outputs either 160 kW or 190 kW, corresponding to the low-power or high-power models. The CLTC cruising ranges are 520 km and 620 km, respectively. The range-extender versions are powered by a 1.5L hybrid engine and a rear-mounted electric motor with a maximum power of 175 KW. The pure electric cruising ranges are 121 km and 200 km while the comprehensive ranges with a full tank and full charge are 1,040 km and 1,120 km.

Specification

Model	2022 CHANGAN SL03 EV 515KM	2022 CHANGAN SL03 EV 705KM
