### Product Description

So after the price adjustment of the 2024 Honor Edition model, will there be any difference in configuration from the Champion Edition? After looking through the configuration table, there is no difference in configuration between the two models, so even the 2024 Honor Edition DM-i 55KM leading model with a guide price of 79,800 has complete enough configurations and is worth buying. All new cars come standard with a complete set of airbags, reversing radar/imaging, automatic parking, cruise control, front keyless entry/start, automatic LED headlights, 10.1-inch central control screen, 8.8-inch LCD instrument, leather Seats and automatic air conditioning are all fully equipped with practical features.

In terms of power, the 2024 Qin PLUS DM-i Honor Edition model is still equipped with a 1.5L four-cylinder engine and a front motor. The engine has a maximum horsepower of 110 horsepower, the motor has a maximum horsepower of 180 horsepower, and a maximum torque of 316 N·m. (The motor of the 120km model The horsepower is 197 horses and the torque is 325 N·m). The acceleration time from 100 kilometers to 100 kilometers can be controlled in 7 seconds. In terms of battery life, the 2024 model provides two versions of 55km and 120km, which are consistent with the previous ones. The minimum fuel consumption on charge is 4.6L./100km.
