Basic Information

- Place of Origin: China
- Brand Name: Green Energy Box
- Model Number: Human Horizons HiPhi X

Product Specification

- Safety And Assistance: DiPilot Smart Driving Assistance System, Multiple Active Safety Technologies
- Overall Dimensions(mm): 4830x1900x1495
- Body Structure: 4-Door 5-Seat Sedan
- Powertrain: 1.5L Naturally Aspirated Engine Producing 74 KW And 126 Nm Of Torque, Paired With A 160 KW Electric Motor
- Maximum Torque (N·m): 210 - 260
- Comprehensive Cruising Range (km): 2100
- Maximum Power (kW): 74(101Ps)
- Drive Type: Front-engine Front-wheel Drive
- Highlight: 2100km Cruising Range Chinese EV Cars,

Product Description

Product Description:

Introducing the latest offering in the realm of Chinese Battery-Powered Cars - the China-made EV Cars that redefine the industry with their innovative technology and sustainable energy solutions. The sleek and sophisticated design of this New Energy Car boasts a 4-door 5-seat sedan body structure, providing both comfort and style for the modern driver.

Equipped with a front-engine front-wheel drive, these Chinese EV Cars deliver a smooth and efficient driving experience, making every journey a pleasurable one. The powerful motor with 101 PS ensures a dynamic performance, allowing you to navigate urban streets and highways with ease.

When it comes to charging, these cutting-edge vehicles offer flexibility and convenience. Slow charging option takes 2.5 - 3.4 hours, allowing you to recharge your EV overnight or during your downtime. For those who are always on the go, fast charging takes only 0.42 hours, providing a quick and efficient solution to keep you moving forward.

Embracing the future of mobility, these China-made EV Cars run on a plug-in hybrid energy type, offering a sustainable and eco-friendly alternative to traditional gasoline-powered vehicles. By choosing this New Energy Car, you not only reduce your carbon footprint but also contribute to a cleaner and greener environment for generations to come.

Features:

Product Name: Chinese EV Cars

Charging Time (hours): Slow charging takes 2.5 - 3.4 hours, Fast charging takes 0.42 hours

Curb Weight (kg): 1660 - 1775

Powertrain: 1.5L naturally aspirated engine producing 74 kW and 126 Nm of torque, paired with a 160 kW electric motor

Motor(PS): 101

Drive Type: Front-engine front-wheel drive

Technical Parameters:

| | |
|-----------------------------------|---|
| Tire Specification Size | 225/60 R16, 225/55 R17, 225/50 R18 |
| Product Name | High Power Blade Battery 2025 BYD Qin L DMI Hybrid 120km Chinese EV Cars New Energy Car |
| Design and Comfort | Sleek fastback design, tech-equipped cabin, spacious interior, comfortable seating arrangements |
| Interior and Technology | 15.6-inch adaptive rotating central control screen, DiLink intelligent cockpit system, in-car ETC, NFC phone keys, intelligent voice controls, Chinese landscape-inspired interior design |
| Powertrain | 1.5L naturally aspirated engine producing 74 kW and 126 Nm of torque, paired with a 160 kW electric motor |
| Battery Range CLTC(km) | 80 - 120 |
| Body Structure | 4-Door 5-Seat Sedan |
| Maximum Torque (N·m) | 210 - 260 |
| Motor(PS) | 101 |
| Comprehensive Cruising Range (km) | 2100 |

Applications:

Green Energy Box presents the Human Horizons HiPhi X, a cutting-edge Chinese battery-powered car that embodies the future of automotive technology. Designed and manufactured in China, this new energy car boasts impressive specifications that cater to a wide range of application occasions and scenarios.

With overall dimensions of 4830x1900x1495 mm, the Human Horizons HiPhi X offers a spacious and comfortable interior suitable for daily commutes, city driving, or long road trips. The comprehensive cruising range of 2100 km ensures that users can travel with peace of mind without frequent recharging, making it ideal for both urban and suburban settings.

Equipped with tire specification sizes of 225/60 R16, 225/55 R17, and 225/50 R18, this Chinese electric car delivers a smooth and stable driving experience across various road conditions. Whether navigating city streets or embarking on highway journeys, the Human Horizons HiPhi X offers reliable performance and handling.

With a maximum speed of 180 km/h and a front-engine front-wheel drive system, this vehicle combines power and efficiency for a dynamic driving experience. Whether cruising on the highway or maneuvering through urban traffic, the Human Horizons HiPhi X ensures a seamless and enjoyable ride.

Whether for daily commuting, weekend getaways, or eco-friendly transportation solutions, the Green Energy Box Human Horizons HiPhi

X is a versatile and innovative choice for individuals seeking a reliable and sustainable mode of transport. Experience the future of mobility with this exceptional Chinese electric car that redefines the automotive landscape.
