

15.87 kWh Blade Battery Chinese EV Cars with Fast Charging Capability and Plug-in Hybrid Technology

Our Product Introduction

for more products please visit us on chinese-evcars.com

Basic Information

- Place of Origin: China
- Brand Name: Green Energy Box
- Model Number: Human Horizons HiPhi X

Product Specification

- Maximum Speed (km/h): 180
- Wheelbase (mm): 2790
- Charging Time (hours): Slow Charging Takes 2.5 - 3.4 Hours, Fast Charging Takes 0.42 Hours
- Design And Comfort: Sleek Fastback Design, Tech-equipped Cabin, Spacious Interior, Comfortable Seating Arrangements
- Charging: Supports AC Charging Up To 6.6 KW And DC Fast Charging Up To 23 KW
- Overall Dimensions(mm): 4830x1900x1495
- Body Structure: 4-Door 5-Seat Sedan
- Advantages: Efficiency Achieving 2.9 Liters Per 100 Kilometers Fuel Consumption Rate, 0-100 Km/h Acceleration Time Around 7.5

Product Description

Product Description:

Introducing the Chinese EV Cars, a range of innovative New Energy Cars that combine cutting-edge technology with eco-friendly features. One standout model is the BYD Qin L DM-i, boasting impressive specifications to revolutionize your driving experience. Comprehensive Cruising Range: With a remarkable cruising range of up to 2100 kilometers, the Chinese EV Cars ensure you can travel longer distances without the need for frequent recharging. This makes it a reliable option for both daily commutes and long road trips. Powerful Motor: The motor of the BYD Qin L DM-i delivers a robust performance with 101 PS, providing swift acceleration and smooth handling on various terrains. This ensures a dynamic driving experience that is both efficient and enjoyable. Maximum Speed: Enjoy the thrill of cruising at a maximum speed of 180 km/h, offering a blend of speed and safety for your travels. The Chinese EV Cars prioritize both performance and security to enhance your overall driving experience. Optimal Curb Weight: Designed for agility and efficiency, the Chinese EV Cars have a curb weight ranging from 1660 to 1775 kilograms. This optimal weight distribution contributes to better handling, stability, and fuel efficiency, ensuring a balanced driving experience. Efficient Charging Options: The Chinese EV Cars offer versatile charging solutions to suit your lifestyle. Slow charging takes 2.5 to 3.4 hours, ideal for overnight charging at home or during work hours. For quick top-ups on the go, fast charging only requires 0.42 hours, allowing you to get back on the road swiftly. Experience the future of mobility with the Chinese EV Cars, a testament to China-made innovation and sustainability. The BYD Qin L DM-i stands out as a prime example of cutting-edge technology and eco-conscious design, catering to modern drivers seeking a reliable and efficient vehicle. Elevate your driving experience with the Chinese EV Cars today.

Features:

- Product Name: China-made EV Cars
- Engine: 1.5L 101 horsepower L4 plug-in hybrid
- Motor(PS): 101
- Interior and Technology:
 - 15.6-inch adaptive rotating central control screen
 - DiLink intelligent cockpit system
 - In-car ETC
 - NFC phone keys
 - Intelligent voice controls
 - Chinese landscape-inspired interior design
- Wheelbase (mm): 2790
- Drive Type: Front-engine front-wheel drive

Technical Parameters:

Technical Parameter	Details
Powertrain	1.5L naturally aspirated engine producing 74 kW and 126 Nm of torque, paired with a 160 kW electric motor
Charging Time (hours)	Slow charging takes 2.5 - 3.4 hours, Fast charging takes 0.42 hours
Battery Range CLTC(km)	80 - 120
Maximum Speed (km/h)	180
Interior and Technology	15.6-inch adaptive rotating central control screen, DiLink intelligent cockpit system, in-car ETC, NFC phone keys, intelligent voice controls, Chinese landscape-inspired interior design
Body Structure	4-Door 5-Seat Sedan
Engine	1.5L 101 horsepower L4 plug-in hybrid
Comprehensive Cruising Range (km)	2100
Motor(PS)	101
Design and Comfort	Sleek fastback design, tech-equipped cabin, spacious interior, comfortable seating arrangements

Applications:

The Human Horizons HiPhi X, originating from China, showcases a front-engine front-wheel drive system that ensures a smooth and efficient driving experience. Its sleek fastback design not only enhances aerodynamics but also contributes to its overall stylish appearance. The tech-equipped cabin offers a futuristic feel, providing occupants with a blend of comfort and convenience. The 4-Door 5-Seat Sedan body structure of the HiPhi X allows for ample space, making it suitable for various product application occasions and scenarios. Whether it's daily commuting, weekend getaways, or long road trips, this electric vehicle caters to diverse needs. The comfortable seating arrangements ensure that passengers can enjoy the journey in comfort. With a maximum power output of 74 kW (101Ps), the HiPhi X delivers a dynamic driving performance, suitable for urban environments and beyond. The tire specifications, available in sizes 225/60 R16, 225/55 R17, and 225/50 R18, offer a balance of grip and efficiency on different road surfaces.

In conclusion, the Green Energy Box Human Horizons HiPhi X represents the next generation of Chinese EV cars, combining advanced technology, design sophistication, and eco-conscious engineering. Its versatility and performance make it a compelling choice for consumers looking to experience the future of automotive transportation.

Support and Services:

Product Technical Support and Services for Chinese EV Cars:

- Comprehensive support for troubleshooting technical issues related to the electric vehicle system.
- Regular software updates to ensure optimal performance and enhanced features.
- Access to certified service centers for maintenance and repairs.
- Assistance with charging infrastructure setup and optimization.
- Dedicated customer support for any inquiries or concerns regarding the product.

Packing and Shipping:

Product Packaging:

The Chinese EV Cars are carefully packaged in sturdy cardboard boxes to ensure safe transportation. Each car is securely placed in the box with protective padding to prevent any damage during shipping.

Shipping:

Once your order is confirmed, the Chinese EV Cars will be shipped via a reliable courier service. You will receive a tracking number to monitor the status of your delivery. The cars will be delivered to your doorstep within the estimated delivery time frame.

FAQ:

Q: What is the brand name of this EV Cars product?

A: The brand name of this EV Cars product is Green Energy Box.

Q: What is the model number of this EV Cars product?

A: The model number of this EV Cars product is Human Horizons HiPhi X.

Q: Where is this EV Cars product manufactured?

A: This EV Cars product is manufactured in China.

Q: What is the driving range of this EV Cars product on a single charge?

A: The driving range of this EV Cars product on a single charge is approximately 400 miles.

Q: Does this EV Cars product support fast charging?

A: Yes, this EV Cars product supports fast charging which can provide up to 80% charge in just 30 minutes.
