Basic Information

- Place of Origin: China
- Brand Name: Green Energy Box
- Model Number: Human Horizons HiPhi X

Product Specification

- Battery Range 80 - 120
CLTC(km):
- Maximum Speed (km/h):180
- Maximum Torque (N·m):210 - 260
- Engine: 1.5L 101 Horsepower L4 Plug-in Hybrid
- Interior And Technology:15.6-inch Adaptive Rotating Central Control Screen, DiLink Intelligent Cockpit System, In-car ETC, NFC Phone Keys, Intelligent Voice Controls, Chinese Landscape-inspired Interior Design
- Powertrain: 1.5L Naturally Aspirated Engine Producing 74 KW And 126 Nm Of Torque, Paired With A 160 KW Electric Motor
- Overall 4830x1900x1495
Dimensions(mm):

Product Description

Product Description:

Introducing the latest offering in the world of Chinese Battery-Powered Cars - the Chinese EV Cars. These state-of-the-art vehicles combine cutting-edge technology with sleek design, providing a truly futuristic driving experience. Design and Comfort are at the forefront of the Chinese EV Cars. With a sleek fastback design that exudes sophistication and style, these cars are sure to turn heads wherever they go. The tech-equipped cabin is designed to provide a seamless driving experience with all the latest features at your fingertips. The interior is incredibly spacious, offering ample legroom and headroom for a comfortable journey. The seating arrangements are designed with both comfort and style in mind, ensuring that every ride is a luxurious experience. When it comes to performance, the Chinese EV Cars do not disappoint. Equipped with a 1.5L 101 horsepower L4 plug-in hybrid engine, these vehicles offer a perfect blend of power and efficiency. Whether you're navigating city streets or cruising on the highway, the Chinese EV Cars deliver a smooth and responsive driving experience. When it comes to the Tire Specification Size, the Chinese EV Cars come with a range of options to suit your preferences. Choose from 225/60 R16, 225/55 R17, or 225/50 R18 tires to customize your driving experience and ensure optimal performance on the road. Charging your Chinese Electric Car is a breeze, thanks to the quick charging times. Slow charging takes between 2.5 to 3.4 hours, while fast charging can be completed in just 0.42 hours, allowing you to get back on the road in no time. The Wheelbase of the Chinese EV Cars measures 2790mm, providing a stable and comfortable ride for both the driver and passengers. This optimal wheelbase ensures excellent handling and maneuverability, making every drive a pleasure. Experience the future of transportation with the Chinese EV Cars. These New Energy Cars are setting the standard for innovation and sustainability in the automotive industry. Get behind the wheel of one of these cutting-edge vehicles and discover a new way to drive.

Features:

Charging	Supports AC charging up to 6.6 kW and DC fast charging up to 23 kW
Energy Type	Plug-in hybrid
Product Category	Chinese EV Cars
Interior and Technology	15.6-inch adaptive rotating central control screen, DiLink intelligent cockpit system, in-car ETC, NFC phone keys, intelligent voice controls, Chinese landscape-inspired interior design
Maximum Speed (km/h)	180
Engine	1.5L 101 horsepower L4 plug-in hybrid
Wheelbase (mm)	2790

Applications:

Green Energy Box, a prominent brand in the realm of China-built Electric Cars, presents the cutting-edge Human Horizons HiPhi X model. Originating from China, this innovative electric vehicle boasts a 15.87 kWh Blade Battery (LFP) that delivers an impressive electric-only range of up to 120 km under CLTC conditions. The combined driving range of 2,100 km ensures unparalleled convenience for drivers.

Equipped with a maximum power of 74 kW (101Ps), the HiPhi X offers a dynamic driving experience while prioritizing safety with the DiPilot smart driving assistance system and multiple active safety technologies. These features make it an ideal choice for safety-conscious individuals seeking a reliable mode of transportation.

When it comes to charging options, the HiPhi X does not disappoint. It supports both AC charging up to 6.6 kW and DC fast charging up to 23 kW, ensuring that users can easily recharge their vehicle without unnecessary delays. The battery range of 80-120 km under CLTC

conditions further enhances the convenience and efficiency of the charging process.

The versatility of the HiPhi X makes it suitable for a variety of product application occasions and scenarios. Whether navigating bustling city streets or embarking on long road trips, this China-made EV Car excels in providing a seamless driving experience. Urban commuters will appreciate its electric-only range for daily travels, while long-distance drivers can rely on its impressive combined driving range for extended journeys.

In conclusion, the Human Horizons HiPhi X by Green Energy Box represents the pinnacle of Chinese Electric Cars, offering a harmonious blend of performance, safety, and sustainability. With its advanced features and reliable performance, this electric vehicle is poised to redefine the driving experience for individuals across various lifestyles and preferences.
