Body structure	4-door 7-seater SUV
Maximum speed (km/h)	180
Wheelbase (mm)	2820
Front track (mm)	1650
Rear track (mm)	1630
Curb weight (kg)	2445

### 2025 BYD Tang DM-i

#### Characteristics

**Powertrain:** The 2025 BYD Tang DM-i is equipped with the fifth-generation DM plug-in hybrid technology, which delivers a combined maximum power of 310 kW. It features a 1.5T engine with a maximum power of 102 kW and a maximum torque of 231 N·m, paired with two electric motors that provide a maximum power of 160 kW and a maximum torque of 325 N·m

#### Applications

**Daily Commuting:** With its pure electric range of 115 km, the Tang DM-i is suitable for daily commuting, reducing fuel costs and emissions

#### Advantages

**Fuel Economy:** The Tang DM-i offers excellent fuel consumption under comprehensive working conditions, with a loss of electricity fuel consumption of 5.5 L/100km

**Battery and Range:** It is equipped with a 21.504 kWh blade battery, which enables a pure electric range of 115 km and a combined driving range of up to 1,150 km

**Design:** The vehicle retains BYD's signature "Dragon Face" design language, featuring a front grille with dragon-scale detailing and full-width black trim. It also introduces a new "Weiyang Grey" color option and a blacked-out sports package

**Interior:** The interior is modern, featuring a full digital instrument cluster and a large central touchscreen. It also includes practical features like wireless smartphone charging and USB charging ports

**Long-Distance Travel:** The combined driving range of up to 1,150 km makes it ideal for long-distance travel without the worry of running out of power

**Off-Road and Adventure:** The advanced DiSus-C intelligent damping control system enhances stability on diverse road

conditions, making it suitable for off-road and adventure activities

**Performance:** The vehicle can reach a top speed of 200 km/h and accelerates from 0 to 100 km/h in 7.5 seconds, providing a powerful driving experience

**Comfort and Handling:** The standard FSD (frequency selective damping) system and the optional DiSus-C intelligent damping control system ensure a comfortable and stable ride

**Safety and Technology:** Equipped with the DiPilot smart driving assistance system, the Tang DM-i offers enhanced safety features and advanced technology

**Green Energy Box Auto Service Co., Ltd.**
